Star Force Base 1198 — Site Owner's Admin Guide

A plain-language guide for running the site day to day. No code knowledge needed. Written for the site owner (Cmdr. Vega / operator).

1. The three parts of your site

The single most important fact: uploading a new website build never touches the database. Your data is separate from your files. You cannot lose or damage data by uploading — and a broken upload is always fixable by uploading a previous good zip.

2. What's new
